LIPOTROPIC FAT BURNING INJECTIONS — NON GLP-1 PROGRAM

Medical Weight Management • In-Clinic & At-Home Patient Information Guide

For patients who want medical weight management without the gastrointestinal side effects, costs, or contraindications of a GLP-1 receptor agonist, this program is being offered by **The Healing Village, Dr. Micah**. These formulations mobilize stored liver triglycerides, accelerate mitochondrial fatty acid oxidation, and restore cellular energy pathways.

Core Protocol — Master Fat-Burning Injection

Product / Treatment	Key Active Ingredients	Clinical Action & Patient Benefits	Schedule / Delivery
Lipo-Mino-C Injection (The Premier Fat-Burning Injection)	L-Carnitine, Methionine, Inositol, Choline, Vitamin B1 (Thiamine), Vitamin B2 (Riboflavin), Vitamin B6 (Pyridoxine), Vitamin B12 (Cyanocobalamin)	Mobilizes stored liver triglycerides, supports hepatic fat clearance, accelerates mitochondrial fatty acid oxidation, and delivers smooth, steady physical energy without central nervous system jitteriness.	***Master 1x Per Week In-Office Injection***

In-Clinic Injection Add-Ons (Ask Dr. Micah)

Injection Add-On	Target Mechanism	Clinical Action & Patient Benefits	Best Paired With
Stand Alone L-Carnitine	High-concentration cellular fatty acid shuttle	Substantially ramps up fat metabolism, increases energy & performance, supports and enhances physical recovery, assists in energy production in the cardiac muscle and supports circulation, also provides better mental clarity and neurological health.	***Fat Burn & Cardiac Energy***
Stand Alone Vitamin D3	High-potency injectable Cholecalciferol	Quickly elevates low or deficient levels of Vitamin D that oral supplements cannot do, enhances calcium and phosphate absorption for strong bones and teeth, regulates your immune system and helps muscles to function and added muscle strength, and boosts your mood and cognitive balance.	***Immunity & Muscle Strength***
Stand Alone Amino Blend	Targeted muscular & vascular amino acids	Offers nutrients directly into the muscle tissue offering steadier energy, faster recovery, helps the body rid itself of fat more efficiently, improves circulation and blood flow, and increases collagen.	***Recovery & Blood Flow***

Take Home Maintenance Stacks (Keep Your Body Feeling Good at Home)

Product	Key Ingredients	Clinical Use & Patient Benefits	Best Paired With
Be-Thin™ Sublingual Spray	Sublingual Methyl B12 & Acetyl-L-Carnitine	Not only will you burn fat quicker, but you will not experience a mid afternoon energy loss; this spray is easy to use and works insanely well.	***On-the-go Fat Metabolism***
Lipo-BC™ Tablets	Oral Choline, Inositol, Biotin, B-Complex	Supports energy and contains daily oral Choline, Inositol, Biotin, and B-Complex to maintain baseline lipotropic cofactor saturation in the liver.	***Daily Liver & Energy Support***
DIU-Caps Capsules	L-Phenylalanine, Vitamin C, Vitamin B6	Provides L-Phenylalanine to stimulate the gut hormone cholecystokinin (CCK), naturally suppressing appetite and sweet cravings between injection appointments.	***Appetite & Craving Control***
NutriLean™ Capsules	ForsLean® (Forskolin), Acetyl L-Carnitine	Formulated with ForsLean® (Forskolin) and Acetyl L-Carnitine to elevate intracellular cAMP, stimulating hormone-sensitive lipase (HSL) and preventing metabolic adaptation as body mass decreases.	***Metabolic Rate & Lean Mass***
